Enhancing your influence by Transforming your communication style

# TRAINING SEMINAR FOR BEHAVIOR CHANGE

Essence of the "SHOP"\* course in 4 days

Don't we always *push our ideas* one-sidedly to our subordinates, allowing them to *skip a process of their own thinking*, only to result that their possible commitment to work be entirely lost!?

Once they start being *initial thinking creatures*, they *show up being so conscious of self-responsibility*, readily contributing to solipsistic commitment to their job assignments.

Experience how this transformation occurs through this training seminar.

**AOTS will issue the Certificate of Completion to those who completed this 4 days Webinar.**

\* "SHOP" is the abbreviation for "Training Program for Solving Human and Organizational Problems" held for over 35 years in Japan
