

Management Training in Japan for LATIN AMERICA

ODA Program Partly
Subsidized
by Japanese
Government

The Lean Management Training Program

18-27 January, 2023 (10 DAYS)

@AOTS Tokyo Kenshu Center, Tokyo in Japan

Course Director

Mr. Mitsuru SUZUKI

Senior Consultant,

Trainer of TPS Practice Dojo, Hirayama Co.,
Ltd.

Worked for Japanese car maker for more than 40 years, and had been at the chief leader of production department at the plant, in charge of overseeing several production groups at the front line. He had also been active as technical trainers of the company. After retirement, he has been active as a management consultant and has instructed a large number of foreign companies.

✓ Highlights

- ✓ To understand the aim and the basic concept of the Lean production system in a systematic way.
- ✓ To gain a deeper understanding of QCD management methods (5S, visual management, improvement activities, quality assurance, etc.), which form the basis of the Lean production system.
- ✓ To learn the improvement methods that utilize the IoT as a new way of improvement activities.
- ✓ To improve the ability to apply the concepts and management methods of the Lean production system to own production sites and create specific plans for improving production processes.
