

The Training Program on Program & Project Management

~ To learn the system and methods of program and project management based on P2M

Course Director

Professor,
Dr. Hiroshi Tanaka

Ph.D. (France),
Dr.PM Hon. (Ukraine)

Academic Adviser,
Past President of Project
Management Association
of Japan (PMAJ)

Global Professor of
Strategy, Project and
Program Management

*Those participants who have successfully completed the training program and has been conferred AOTS's official certificate, will also be awarded International P2M Practitioner (iP2M) credential by Project Management Association of Japan.

Goal of this course

- ✓ Acquire the fundamental methods and basic application skills of project management used to manage a single project
- ✓ Familiarize themselves with "agile project management method", an emerging variation of project management which is suited to development of a highly innovative product or service, and stepwise corporate innovation where no model or prototype exists hence, it is difficult to define what to make from the beginning
- ✓ Learn the concept of program management at an advanced level which is gaining increasingly important roles for business competitiveness, innovation in a variety of sectors, and sustainability in global competition
- ✓ Enable the participants to obtain deeper understanding of roles of project managers and program managers in the contemporary fast moving economy and industry and the society.

Date: From 17 to 30 January 2024 *14 days

Target: Directors, senior managers in companies and/or project leaders or managers who are in a position to plan and/or manage projects in the participant's country. Managers or staff of industrial promotion organizations and/or business associations who support local companies in facilitating project management may also be accepted.

*25 years old or over with more than 3 years of work experience

About Tokyo Kenshu Center, Training Location and Accommodation

- Home Away from Home -

Strategically located in the quaint Kita-senju area of Tokyo, the TKC first opened its doors in April 1982. The training centers provide training facilities and accommodations for trainees who are away from their countries to participate in training courses at AOTS and specialized technical training at host companies. Our training center has a role to be a **"Home Away from Home"** for the trainees during their stay in Japan, in order to reduce the cultural gap and provide comfortable circumstances. For example, at the training center canteens, menu for vegetarians and Muslims are available every day. Various menu of trainees' home countries are also prepared. The reception desks deal with inquiries from trainees for 24 hours. The training centers support welfare of trainees by providing regular health consultations as well.
