1. BACKGROUND OF THE PROGRAMS:

The Association for Overseas Technical Cooperation and Sustainable Partnerships (AOTS) is an organization for human resources development mainly in overseas countries to promote technical cooperation through training, experts dispatch and other programs. Through those programs, we aim at contributing to the mutual economic growth of developing countries and Japan as well as enhancing friendly relations among those countries.

AOTS was established in 1959 with the support of the Ministry of International Trade and Industry (which is the present Ministry of Economy, Trade and Industry: METI) as Japan's first technical cooperation organization on a private sector basis. More than 200,000 individuals from 198 countries and regions have undergone our training in Japan, while the cumulative attendance at our overseas programs till the end of fiscal 2022 exceeded 230,000.

At the request of the former participants of AOTS training programs as well as the industrial and business circles in developing countries, AOTS has been organizing various training programs.

The Program on Corporate Management Carbon Neutrality for Indonesia (IDCM) is one of such management training programs, which is being organized in collaboration with Himpunan Alumni AOTS Indonesia (HAAI) and Yayasan Dharma Bhakti Astra (YDBA), and mainly designed for CEOs and senior executives of SMEs in order to learn management methods and environmentally friendly management techniques related to corporate management and case studies of excellent Japanese companies, so that participants can strengthen their own management foundation and formulate strategies for corporate development and growth after returning to their home countries, and to improve their overall business management skills in response to carbon neutrality.
